

La Belle époque

my name is 'La Belle Époque'

Early 20th century was mine

I'm 100 years old, in this house, from a time where Romanticism and Champagne were 'fashion', and modern art was a delightful time just before the terrible 1st world war.

Mon nom est... La Belle Époque

Mon époque est... début 20^{ème} siècle

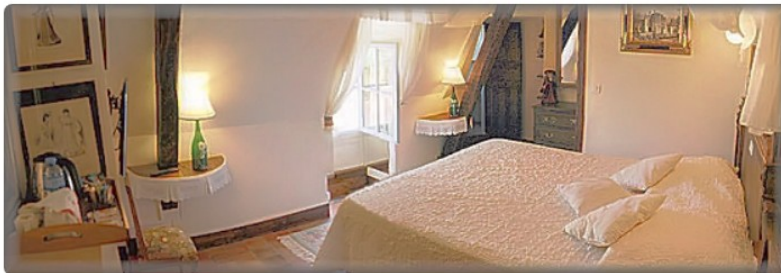

J'ai été créée il y a 100 ans, dans cette Maison ; une époque où la joie de vivre, le champagne, et la fête, rendait heureux ; les journaux de modes s'appelaient 'le journal des demoiselles', la fin des impressionnistes et l'art nouveau le sujet de discussion des salons ; mais aussi juste avant la terrible 1^{ère} guerre mondiale.

The smallest of our bed and breakfast room offer the highest (and best) view toward the Indre et Loire Valley, the Public Garden, and our garden on the old walls of the Fort St Ours (12th century).

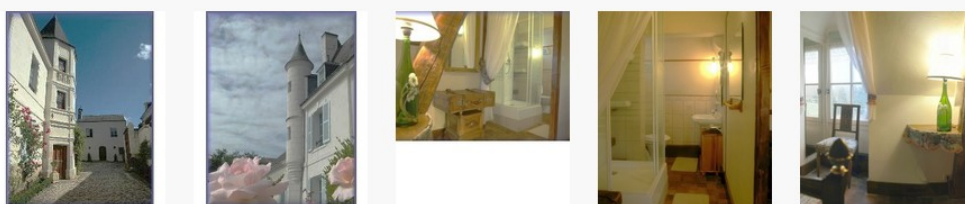

There is a small bathroom, but complete with shower, sink and toilet. Hair-dryer, and Bathrobes completes the room.

A modern **bed, quality upscale luxury hotel**, 160 cm wide (queen size for a princess ...), for a perfect night sleep, sleeping height was raised to 60-64 cm for comfort when getting up (20 slat, high density HR35 high resilience, foam memory, fireproof, anti-dust mite mattress, etc ...)

Little for storage space inside the room with a small wardrobe and a dresser, but the landing of the tower serves as luggage racks and an extra Low chest of drawers.

This "Princess Nest" is the only one room in the house which have both tops from 2 of our 4 towers The great Renaissance tower, courtyard-side, with its wide spiral stone staircase and the small corbelled turret garden-side, which allows a very picturesque small space
Her small work plan, is a place of fairy tale (the story of Princess Rapunzel with her long hair of the brothers Grimm
